Features

Bertie the Bluebird

Kids will build fine motor skills to turn the hand crank under the vine.

Bella the Butterfly

Children will develop fine motor skills, problem solving skills, and pattern recognition as they move the metal pegs through the wings.

Mailbox with Chimes

Kids will use fine motor skills to manipulate items to slip through the slot and move the levers.

Ferah the Firefly

Children will gain visual and auditory stimulation from the falling of the colored beads. They will also be exercising fine motor skills to turn the rattle.

Carl the Caterpillar

Kids will experience kinesthetic and auditory stimulation from moving the rings. They will also begin color recognition.

Lily Lady Bug Spinner

This item rotates and clicks, which will develop fine motor skill when children grip and rotate it. This also allows for auditory sensory stimulation.

Windows with Peek

Children can play a fun game of peek-a-boo from inside or outside of the structure.

Marty the Sensory Mushroom

This is a step and seat with textures, for sensory stimulation, that will develop gross motor skills and balance as children step on it.

Shelly the Snail Drum

Children will develop pattern recognition with the swirls in the shell as well as musical and auditory stimulation.

Leaf Slide x 3

This ramp and slide can be used to develop animal recognition with its many animal carvings on it. They will also work on gross motor skills as they slide and balance on it.

Stone Climber

Children can develop gross motor skills as they step up and practice balance.

Vine Bench

Children can take a break while they socialize with other children or play with one of the other components.
