Description

Our sleek 32-gallon recycled plastic tapered receptacle with a steel frame and pedestal stand will provide many years of quality service at parks and schools. Made of 1" x 4" solid high-density polyethylene lumber cedar slats and supported by a strong black powder-coated steel frame. This receptacle is completely durable, resist to rot or rust, and cleans easily with just soap and water. Includes a 32-gallon black drum that fits perfectly in the receptacle. Ships fully assembled and ready for use. Supported on an 11 gauge steel stand, welded to a surface mounting plate that can be fastened to a concrete slab. This unit is made in the USA and is supported by our 5-year commercial warranty.
